EDUCATION

- **VIT Bhopal** 2023 - Present
B.Tech in Computer Science & Engineering Bhopal, India

EXPERIENCE & INTERNSHIP

- **FOSSEE, IIT Bombay** 4 Months
Prompt Engineering & AI Research Intern Remote
 - Analyzed LLM tutoring behavior on a 14K coding dataset to evaluate hint-based learning versus direct solution generation.
 - Engineered Python scripts for automated error classification, data cleaning, and taxonomy validation.
 - Conducted benchmark research and operational cost analysis to evaluate scalable AI tutor deployment.
- **Accenture Innovation Challenge** 2024
Participant
 - Worked on a Generative AI solution for business process optimization.
- **Design Team Core Member** April 2024 - Present
VIT Bhopal
 - Leading UI/UX design for various college projects and mentoring junior students in design principles.

PROJECTS

- **Priority Inbox (Chrome Extension)** Chrome Extensions, Gmail API, JavaScript
 - Built a Chrome extension for filtering emails from priority senders only.
 - Created a distraction-free email interface with seamless Gmail API integration.
- **AI-Powered Home Tutor App** Python, Machine Learning, UI/UX Design, Figma
 - Developed a personalized tutoring app for Class 6-10 students with adaptive learning avatars.
 - Integrated video lessons, interactive quizzes, and comprehensive performance tracking features.
- **Fraud Detection Web App** Python, Flask, Scikit-learn, HTML/CSS/JS
 - Built a real-time credit card fraud detection system using a Decision Tree ML model.
 - Developed a responsive UI with features like dark mode and downloadable prediction reports.

TECHNICAL SKILLS

Languages: C++, Java, Python, JavaScript, HTML, CSS
Databases & Frameworks: MySQL, SQL, Flask, Bootstrap, Pandas, Scikit-learn
Cloud & Architecture: AWS (EC2, S3, RDS, VPC), GCP, Virtualization, Architecture Concepts
Machine Learning: Logistic Regression, K-Nearest Neighbors (KNN), Decision Trees
Networking & Tools: TCP/IP, Routing & Switching, Cisco Packet Tracer, Git, Figma, Canva

RELEVANT COURSEWORK

- Database Management Systems (DBMS), Operating Systems, Computer Networks.

CERTIFICATIONS

- **UI/UX Design** from IBM (Coursera)
- **Machine Learning** from University of Michigan (Coursera)
- **Internet of Things** from NPTEL

ACHIEVEMENTS

- Active competitive programmer on platforms like **CodeChef** and **LeetCode** .
- **CodeChef High Performer:** Secured **Global Rank 67** (Starters 190) and **Global Rank 95** (Starters 204). Consistently ranked among top global participants with Ranks 188 and 253 in Starters 195 and 196 respectively.
